Monster

Notes: The Monster formation is completely balanced. The 4 back lines up 2 yards behind the 1. 2 and 3 line up about 4 yards behind the 1. With all running plays, the Monster (4 back) leads into the called hole. Another words, if a 24 Dive is called, the 4 leads through the 4 hole - if an 18 sweep is called, the 4 leads around the 8 hole. In a monster, when a pass is called, the 4 back lines up behind the 1. The linemen should have monster splits for this formation -- unless a pass is called.
